ON THE COVER

THE DENVER & RIO GRANDE Railroad purchased a pair of Baldwin outside frame Consolidations from the Crystal River Railroad in 1915 to replace the smaller, aging Class 70 2-8-0s. After 1923, the Rio Grande reclassified the two locomotives C-21 and renumbered them 360 and 361. Our photo feature begins on page 33. Russ Reinberg photographed the 1:20.3 scale Accucraft brass import.
